**RULES.**

1. (i) A candidate who desires to appear at the examination shall apply to be admitted to the examination before such date and in such form as the Federal Public Service Commission may prescribe. The application shall be made through the Collector or Deputy Commissioner of the district in which his parents reside at the time of the application, or have previously resided for a period of not less than three years, or in which he has himself resided, otherwise than as a student at an educational institution only, for a like period.

(iii) Cadets of the Prince of Wales's Royal Indian Military College, Dehra Dun, shall submit their applications through the Principal of the College.

(iv) A candidate resident in an Indian State shall submit his application through the Durbar, who will forward it to the Political Officer or Agent.

(v) No candidate shall make more than one application in respect of this examination.

(vi) A candidate shall, except in very exceptional circumstances, appear personally before the District Officer or the Political Officer or Agent who signs the attestation form.

2. A candidate must be an unmarried man and either—

(b) a Ruler or a subject of a State in India or a British protected person of the tribal areas.

Provided that in the case of a British subject the requirements of this rule may be waived by the Secretary of State in Council if he is satisfied that their observance would occasion exceptional hardship, and that the candidate is so closely connected by ancestry and upbringing with His Majesty's dominions as to justify special treatment.

3. A candidate must furnish a declaration from his father or guardian, in the form prescribed, that the latter is in a position, and will be prepared to discharge the financial obligations attaching to the candidate's training for appointment to the Royal Indian Navy. Should it be found that the declaration in regard to discharge of financial obligations during the period of training is false in any respect, the candidate will be liable to immediate removal.

4. The maximum number of candidates to be admitted to the examination may, in the discretion of the Governor-General in Council, be limited to such number as the Governor-General in Council may decide. If a limit is imposed and the number of candidates exceeds that limit, the Federal Public Service Commission shall select from among the applicants those who shall be admitted to the examination and shall have regard in so doing to the suitability of the applicants for employment as commissioned officers in the Royal Indian Navy.

5. A candidate for this examination must have been born not earlier than the 2nd May, 1919 and not later than the 1st May, 1921.

6. A candidate must be in good mental and bodily health and free from any physical defect likely to interfere with the efficient performance of the duties of a commissioned officer in the Royal Indian Navy. A candidate who after examination by a Medical Board is found not to satisfy these requirements will not be accepted for admission to the Service.\*

\*Only successful candidates will be medically examined. Candidates are recommended to consult a Civil Surgeon as to their physical suitability before entering for the examination.

7. A candidate must satisfy the Federal Public Service Commission that he is suitable in all respects for employment as a commissioned officer in the Royal Indian Navy.

9. No candidate shall be admitted to the examination unless he holds a certificate of admission from the Federal Public Service Commission.

10. Any attempt on the part of a candidate to enlist support for his application will disqualify him for admission to the Royal Indian Navy.

11. Candidates must pay the following fees

- (i) Rs. 7-8-0 with the application form.
- (ii) if accepted for admission to the examination, Rs. 50 immediately after the receipt of the certificate of admission.

87F. (1) On the appearance in any part of a mine of smoke or other sign indicating that a fire has or may have broken out all workmen other than those whose presence in the mine is deemed necessary for dealing with the emergency shall be immediately withdrawn from the mine. No workmen, other than the men required for dealing with or damming off the fire, shall be re-admitted until either the fire has been extinguished or the part in which it exists has been effectively dammed off and an examination has been made by the manager and the competent person appointed under regulation 72 and the mine has been reported to be safe. Every such report shall be recorded without delay in a paged book, which shall be kept at the mine for the purpose and shall be dated and signed by the manager and the competent person who made the inspection:

If incombustible dust is used for the purpose, it shall be of a kind which is not likely to be injurious to the health of workmen.

(2) The precautions laid down in sub-regulation (1) shall also be observed at all places within 400 feet of an area—

- (i) which has been or is being sealed off on account of fire; or
- (ii) in which pillars are being extracted.

(3) The Chief Inspector may, by order in writing, grant, subject to such conditions as he may impose, exemption from the provisions of sub-regulation (1) or sub-regulation (2) to any mine or part of a mine on the ground that, on account of the special character of the mine or part, the observance of the precautions laid down therein is not necessary.

87J. In any working mine in which a fire is known or is believed to exist—

(a) adequate precautions shall be taken to prevent the passage of air from the mine through any goaf or through broken strata connected with the fire; and

(b) no work, other than work required by clause (a) of this regulation, shall be done in any part of the mine which is not effectively sealed off from any such goaf or broken strata."

Provided that the Chief Inspector may by order in writing require the provision of means of telephonic communication where in any mine the main haulage extends to a distance of less than 3,000 feet from the shaft or the entrance to the mine, where travelling is unduly arduous:

Provided further that the Chief Inspector may by order in writing permit the use of other suitable means of communication in cases in which the conditions in the mine are not suitable for telephones."

XXI. For regulation 95, the following regulation shall be substituted, namely:—

"95. (1) No person shall permit a tub or tubs to run uncontrolled except with the consent of the manager:

Provided that the Chief Inspector may, by order in writing, prohibit the uncontrolled movement of tubs at any place where, in his opinion, there would be danger of injury to persons.

(2) No person shall ride on any tub, truck or wagon, either under ground or above ground, except with the written permission of the manager."

XXII. In regulation 96A, the words "in which inflammable gas has been found during the previous twelve months or in which there is a risk of inflammable gases entering the mine from an underground fire" shall be omitted.

XXIII. After regulation 101, the following regulation shall be inserted, namely:—

"101A. No liquid oxygen explosive shall be used in any underground part of a mine."

XXIV. For regulations 108 and 109, the following regulations shall be substituted, namely:—

(2) In any mine in which more than 50 persons are employed underground at any one time, no person shall be so appointed or shall perform the duties of a shot-firer who is responsible for making inspections under sub-regulation (2) of regulation 70.

(3) With effect from the 1st day of April 1940, no person shall be appointed as a shot-firer under sub-regulation (1) unless he holds either a shot-firer's certificate or a sirdar's certificate or a manager's certificate granted under these regulations.

109. Every shot-firer shall, before a shot is fired by him or under his supervision, see that all persons in the vicinity have taken proper shelter at a safe distance; he shall also take suitable steps to prevent any person approaching the shot and shall himself take proper shelter.”

XXV. For regulations 115 and 115-A, the following regulation shall be substituted, namely:—

“115. (1) In any place in a mine in which the use of a locked safety lamp is for the time being required by or in pursuance of these regulations—

- (a) no shot shall be stemmed or fired by any person who does not hold a sirdar's certificate endorsed for gas testing;
- (b) no shot shall be fired until the shot-firer has examined both the place where the shot is to be fired and all accessible places within a radius of 60 feet for the presence of inflammable gas and has found such places free from gas;
- (c) no shot of a Permitted Explosive shall be fired except by means of a shot-firing apparatus of a type approved by the Chief Inspector and subject to such conditions as he may from time to time lay down by notification in the Gazette of India:

Provided that the Chief Inspector may, in special cases, by order in writing, permit, subject to such conditions as he may specify, the use of any other shot-firing apparatus.

(2) (i) Every approved shot-firing apparatus in use in a mine shall, once at least in every three months, be cleaned and thoroughly overhauled by a competent person appointed in writing by the manager.

(ii) No person shall use or allow to be used any approved apparatus which has become unsafe or defective.

(3) No shot shall be fired at any place underground in a mine unless the place itself and all accessible places within a distance of 60 feet—

- (a) are naturally wet, or
- (b) have been drenched with water to such an extent that there will be no danger of dry coal-dust being raised into the air by the shot, or
- (c) have been thoroughly treated with incombustible dust.”

**XXVI.** For regulation 116, the following regulation shall be substituted, namely:—

**“116.** No explosive other than a Permitted Explosive shall be used—

- (a) in any mine in which inflammable gas has within the previous twelve months been reported to be present or in which safety lamps are required, by or in pursuance of these regulations, to be used for any purpose other than inspections; and
- (b) in any other mine in any main haulage road or main intake or main return airway or any place immediately contiguous to such road, intake, airway or place, unless such road, intake, airway or place is naturally wet throughout:

Provided that in the case of any mine or any part of a mine an exemption may be given by the Chief Inspector, subject to such conditions as he may impose, on the ground that, on account of the special character of the mine, the prohibition of the use of explosives other than Permitted Explosives is not necessary.”

**XXVII.** After regulation 116A, the following regulation shall be inserted, namely:—

**“116B.** In any underground part of a mine two or more shots shall not be charged or fired in the same place simultaneously, if the explosive used is not a Permitted Explosive:

- (a) in any seam in a mine in which an explosion or ignition of inflammable gas has occurred during the previous twelve months:

Provided that the Chief Inspector may, subject to such conditions as he may impose, exempt any mine from the operation of this clause, on the ground that on account of the special character of the mine the use of safety lamps is not necessary;

- (b) in any place in a mine in which there is or is likely to be any such quantity of inflammable gas as to render the use of naked lights dangerous;
- (c) in any working near a place in which there is likely to be an accumulation of inflammable gas; or
- (d) in any ventilating district of a mine in which inflammable gas has been found during the previous twelve months.

(2) If any difference of opinion arises between an Inspector and a manager on the question whether the conditions specified in clauses (b) and (c) of sub-regulation (1) exist in any mine, the question shall be referred to the Chief Inspector whose decision thereon shall be final.

(3) In the case of any mine to which clause (d) of sub-regulation (1) applies the Chief Inspector may, if safety lamps are not immediately available, grant a temporary exemption from the operation of that clause, subject to such conditions as he may specify, until such time as safety lamps can be obtained.

(4) In any mine or part of a mine in which safety lamps have been in use in compliance with the provisions of sub-regulation (1), no artificial light other than an approved locked safety lamp shall subsequently be allowed or used, except with the written consent of the Chief Inspector,

*Explanation.*—Where the ventilation in a mine is not mechanically controlled, the ventilating district shall be deemed to include the whole mine. Where the ventilation in part only of a mine is not mechanically controlled, the whole of the part in which ventilation is not mechanically controlled shall be deemed to be a single ventilating district.

124. Notwithstanding anything contained in regulation 123, fixed electric lights from power mains may be used in any part of a mine which is not within 600 feet of any working face, provided such installation complies with the rules made under the Indian Electricity Act, 1910, relating to the use of electric energy in parts of mines in which inflammable gas is likely to occur in quantity sufficient to be indicative of danger.

125. In any mine in which inflammable gas has been found during the previous twelve months, no advance gallery shall be driven more than ten feet ahead of the widened gallery and in every such gallery the ventilating current shall be conducted as near to the working face as is practicable."
